

# **Over 800 Highly Valuable Domain Names Including Many Personal Domain Names For Only \$20 Each!**

**From Now Through Midnight Central,  
Wednesday, May 5<sup>th</sup> (YES Tonight), You  
Can Purchase ANY Of The Domain  
Names In This PDF, Many Valued In The  
THOUSANDS, (INCLUDING Many  
Personal Names), For Only \$20 Each!**

NOTE: I in addition to dollars, I will also accept BitCoin as payment!

Here is a list of over 800 domain names that I am currently offering for sale at an INSANE DISCOUNT. I actually have MORE invested in many of them than I'm offering them for!

If you have searched for the perfect domain name for a project in the past and could not get it because it was already owned, you may find it on this list since people often change their minds or no-long want a domain name for various reason. Many names on this list were previously owned, and I now fully own them.

The Values Shown For These Domain Names Are Either Professionally Appraised Values Or In Many Cases, The Value Calculated Using The GoDaddy Tool At:

<https://www.godaddy.com/domain-value-appraisal>

As with anything for sale, the actual value is subjective. Something is "worth" whatever someone is willing to give for it, OR what its owner is willing to forego to keep it.

The GoDaddy tool was not used for any of the personal domain names.

Given that there could possibly be thousands of individuals, out of the billions on planet earth, with the exact same name, that makes each personal domain name usually appraise higher than more generic terms.

Since each domain name can only be owned by one person at a time, every single one on this list is a actually rare commodity.

Most of the Top Level Domains (extensions) that I deal in are .coms because when most people think of domain names they automatically think .com, and much of internet search technology also defaults to .com.

Once the domain names you are interested in are still available, I can have a domain name in your possession in under 5 minutes!

I use NameSilo as my preferred registrar. IF you also use the same registrar, a "PUSH" to another account at the same registrar is INSTANTANEOUS.

For that reason, I will encourage you to get a free account at NameSilo. You can just visit here: <http://ProfessionalsUseNameSilo.com/>

#### NOTES:

I first purchased some of these domain names as "promotional domains" to use in promoting specific product launches. Some of those launches are over, but there are often links still pointing to some of those domain names (or emails still being responded to), so many of those domain names do get residual clicks.

Some of the domain names will be perfect for building out niche sites, sites to generate leads for businesses, sites to sell your own or affiliate products, sites to promote restaurants, bars and night clubs, and lots of other uses.

Many of these domain names were previously owned and I invested in them when offered to me at a reasonable price because my experience gained over twelve years of buying and selling domain names convinced me that they were valuable.

Some of these domain names may be slightly offensive to some and that was not my intention in purchasing them. The same word can have different meaning in different cultures, locations and industries.

I DO have "LOTS" of others but plan on developing most of those. If none of the above meet your needs, feel free to let me know what you are looking for since I have lots of friends and students in the industry.

Here are the domain names that I encourage you to look over and then email me your choices/offers at: [willie.crawford@gmail.com](mailto:willie.crawford@gmail.com)

Please use the email subject line: "Interested In Domain Names" so that your note stands out in my email inbox. I receive an INSANE amount of email most days!

Please look over this list ASAP, and let me know which domain names you want to snag for ONLY \$25

I will then confirm which domain names are available and coordinate how we need to proceed with the transfer.

Thank you.  
Willie Crawford
