

**Thank you very much for grabbing David Perde's December Deal through my affiliate link.**

Here are the downloads that I promised as BONUSSES:

1) Interview sharing how I built an email list of over 1 million subscribers. Some of the things that I did in building that database aren't really good ideas today, but they do provide food for thought.

2) Two audios set that I keep uploaded to my iPhone, and listen to from time to time to help keep me FOCUSED!

3) My inspirational "welfare to riches" autobiography, "Git Off The Porch... and embrace your destiny!"

Please download it by adding yourself to this autoresponder:

NOTE: If you'd like the PRINT version of my cookbook, you can order a copy here for only \$15, and that includes the postage if in the U.S. Outside the U.S. the postage is an extra \$20, just because of the rates my post office charges me.

Given that we are in the midst of the holidays and my wife and I LOVE receiving cards, you can send a REAL, fully-color, personalized greeting card, 100% FREE from here:

<http://TheCardThingy.com/>

I've prepaid for the card, so all you need to do is visit the URL above, and click on the link that says "Send A Card." That will drop you into the backend of my personal account, and you can choose a card and just follow the prompts. If you just send a card, when you get to the final checkout it will tell you that the card is FREE since I have an account that allows me to send an UNLIMITED number of cards each month :-)

When I get your card, if you are not already on my Christmas Card List I'll my wife and I will send a card back to you. If it's too late for Christmas, then we'll send you a New Years Card... or a Presidents' Day Card... or a Valentines Day Card :-)

I've used the same system to send cards since 2004, and will probably send around 1200 this holiday season!

By the way, you don't have to send the free card to me. You can send it to ANYONE, ANYWHERE in the world. The system is pre-configured to allow you to send ONE card for free IF you haven't already sent a free card using it.

... and YES, you can even tell your family members and friends a sneaky way to send a free card. I don't mind.

IF you do want to send that card to me, please send it to:
